

The articulation agreement between Delgado Community College (DCC) and Tulane University School of Professional Advancement (SoPA) allows students with a DCC Associate of Science, Louisiana Transfer degree in Biological Sciences to transfer to SoPA as a Junior and complete a B.A. or B.S. degree with a minimum of 60 additional credit hours. Students must meet all SoPA admissions standards and complete all SoPA degree requirementsⁱ. The following tables summarize DCC/Tulane course equivalents, the SoPA distribution requirements that those courses satisfyⁱⁱ, and the remaining requirements for SoPA degrees. **Note: Some SoPA degrees may require students to complete more than 60 credit hours at SoPA. Students are strongly encouraged to consult an advisor and develop an individualized plan of study.**

ⁱ Tulane SoPA distribution requirements (humanities, social sciences, and science) require at least two disciplines per category.

-
- ii If the number of transfer credits exceeds the number of credits needed for a SoPA distribution requirement, the remaining credits will count as general electives if they cannot satisfy other requirements.
 - iii MATH 203 is recommended as it would count toward SoPA's core requirement in quantitative reasoning.
 - iv Psychology courses fulfill science distribution requirements at Tulane.
 - v History courses fulfill social science distribution requirements at Tulane.
